LATTA CASE IS UNFINISHED

Will Be Resumed And Finished within the Next Three Weeks

The plot case in the *Latina* is being tried here before Mr. Justice Street at the instance of the attorney, now the case of *Latina* versus *Anna Chesson Co.* Mr. R. P. O'Brien represents for the plaintiff, and Mr. C. H. Paine for the defendant.

The case is an action for damages brought by the plaintiff, *Latina*, against the *Anna Chesson Co.* of Seattle, claiming that it had received \$1,000 for losses incurred while employed as head cheese maker of the factory, and \$1,000 damages for wrongful dismissal for alleged conspiracy and refusal to give him the order given by superior officer of the factory.

The plaintiff on entering the last testified to having been in the factory for twenty years. He has been a cooper since 1904, and has been in the capacity of head cheese maker for the period from 1 to 3 years in each factory. He stopped making cheese owing to bad health. His witness was O. B. Paine.

Anna Chesson Co. In July 1919 the *Anna Chesson Co.* came to sea and engaged the plaintiff as head cheese maker for 1920 and 1921. For the year 1921 they engaged him giving him \$1,000 per month for the cheese 1 manufactured that the previous year. I started to work April 10, 1921 after having procured a certificate for 1 year from the Department of Agriculture of Ontario. The inspector would not work with me. I was employed as a laborer. The result of the inferior inspector was that they accepted as laborer for about 4 weeks. Then, when they changed except 1, I went out to the store and was charged with the other 2 cheeses, but never got them. I had a dispute with the President over a horse deal. In June Mr. Morton of Belleville purchased a quantity of cheese which I passed as no. 1. He bought for Level 1 Christmas of Montreal. The cheese was too firm to ship and the weather was very hot, and the dispute with Mr. Morton, the President, in shipping that cheese. The cheese was accepted by boat to Montreal. The horse was being broken by Mr. and Mrs. Morton did not wish to let the price agreed upon. Mr. Brynnes did not wish to let the horse and I did not. Twelve cheeses were shipped back to a box car, shattered from the boat, and they being better but not so good. Court was then adjourned until 1:30.

Thin Blooded People

Thin people have a tendency to become thin-blooded, just as others have an inherited tendency to become fat, or to become disease. The condition in which the blood becomes so weak that the whole body suffers, and so gradually that anyone with a natural disposition to that condition should watch the symptoms carefully. Bloodlessness, or anæmia, as the medical term is, can be corrected more easily in the earlier stages than later. It begins with a tired feeling that rest does not overcome, the complexion becomes pale, and breathlessness on slight exertion, such as going up stairs, is noticed.

Dr. Williams' Pink Pills are a remedy that has been most successful in the treatment of troubles due to thin blood. With pure air and good food these blood-enriching pills are the correct treatment when the symptoms described above are noticed. The value of Dr. Williams' Pink Pills in cases of this kind is shown by the statement of Mrs. M. Chase, of Tremont, Ont., who says—"I can highly recommend Dr. Williams' Pink Pills to all who suffer from anæmia and nervous exhaustion. For three years I was nearly always troubled with headache, and said I began taking these pills as treatment seemed to do more than give me temporary relief. I had read of what Dr. Williams' Pink Pills were doing for others and finally decided to try them myself. I further decided to give them a fair trial and kept on taking them regularly for several months and I am glad to say have derived permanent relief. I feel that I can safely and honestly recommend this wonderful medicine."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 80 cents a box or six boxes for \$5.00 from The Dr. Williams' Medicine Co., Brockville, Ont.

POLAR SHIP

SAILS TO-DAY

Amundsen's Northern Expedition is All Ready to Set Forth

Seattle, Wash., June 2.—Captain Roald Amundsen's exploring ship, *Maud*, examined to the last inch of her hull with equipment and supplies, is ready to set sail today on the first leg of the long voyage through the ice floes about the North Pole. Captain Amundsen will not sail with the *Maud*, but will join his ship at Nome, Alaska.

A deck load of lumber forms an important item in the *Maud's* equipment. The explorer explained that after the ship is frozen into the Arctic ice pack which he expects to drift past the North Pole—sailing against the force of the expedition and long for scientific observations to be constructed on the ice. The ship, by means of lumber, will be converted into a "house," where, for the first or many years the vessel will drift, and the crew will live.

As Captain Amundsen drifts slowly across the frozen region of the polar basin, from which no white man ever emerged, he will search the white waste for his sign of the "phantom fleet"—the frozen company of last year that the *Katana* claims wrecked around the North Pole year in and out, gripped in the inexorable clutch of the great ice then.

**WHOLE AFFAIR
WELL HANDLED**

The Great War Veterans' Association of Belleville have every reason to be proud of the success which attended their effort in connection with the fifth annual celebration held under the auspices of the Veterans' Association. The only disappointment was expressed was that the rain which commenced to fall at 10 o'clock on Wednesday afternoon, and continued during the evening prevented the band, now at Veterans Park, also the display of fireworks, which would have been a success. This part of the program will, however, be staged in all probability on Wednesday evening. This year the Association had two days' celebration to commemorate the Kings birthday, namely, on Wednesday and Monday, and on the latter day the program was continued in the afternoon. The celebration was well handled and the money raised was well spent. The program was well handled and the money raised was well spent. IT ALL DEPENDS

The Ontario legislature demanded a bonus of \$600 per member per session, and got it; the civil servants required favorable consideration of their request for a much more modest bonus, and were refused. Both positions were advanced on the same ground—the high cost of living, and it is hard to understand why, if the argument is accepted in the one case, it should be rejected in the other. Each member of the provincial legislature may conscientiously believe that he earns every cent of his \$2,000 for the labor of the session; but if he does, he surely ought to look with a little more sympathy on his less fortunate brethren, who are not so fortunate. Each member of the civil service, though more dependent on the financial recognition of that service. Mr. McKinnon's protest against the appropriation shines like a good deed in a selfish world.

Regarding this question of civil servants' wages, in a statement recently submitted to the federal parliament it was asserted that there are 70,000 civil employees at the present time who receive less than \$800 per annum for their services, and \$500 who receive \$800 or over. The high cost of living certainly hits these employees with alacrity—hand-to-mouth, and it needs no elaborate survey of family budget tables, laboring numbers, and so on, to convince the reader that the government has a tremendous task on its hands. In the case of the civil servants, it is not so much the question of wages. In the case of the civil servants, it is not so much the question of wages. In the case of the civil servants, it is not so much the question of wages.

BETTER SHIPPING PROSPECTS

Overseas of two million tons, gross, of British shipping are lying in the principal ports of the United Kingdom, and not far short of 30,000 merchant officers and seamen are presently unemployed, says the Montreal Gazette. This is a very grim statement, it is properly due to the "British rule" in the engineering and shipbuilding shops of Great Britain, and which has reacted so markedly upon the shipping industry there. There is considerable stir in the shipyards of Germany. Italy and elsewhere, and indeed in Italy Government is sending dispatches to other countries about the emigrant traffic going by way of Italian ports. Germany is not one who lingers in her eagerness in a similar direction. The British shipping industry has been in a similar direction. The British shipping industry has been in a similar direction. The British shipping industry has been in a similar direction.

The dual industries of shipbuilding and shipwrecking are independent of Great Britain. Those who are associated with the North Atlantic trade will know that the movement of immigration has been in the hands of the Atlantic passenger business. Germany has long realized this, and before her war her own central station which shipped her own German ships a large proportion of the emigrant trade. The emigrant trade. It is no longer a matter of armaments, but carrying power, is the key. The emigrant trade. It is no longer a matter of armaments, but carrying power, is the key. The emigrant trade. MAJOR LEAGUE CHATTER

Baseball interest is general all over the country on the eve of the opening of the season. The case of P. J. Ryan, of the Athletics, here this statement.

Last winter, Ryan and Co. were of the opinion that he was worth more than \$100,000.

"I am through playing major league ball," Ryan said, "I will never play 'Major League' ball."

But Ryan, who is a very strong pitcher, has been told by the Athletics that he must play for them.

"I am not," Ryan said, "I am not going to play for the Athletics, but I am going to play for the Athletics."

TEMPERANCE ACT WORKED WELL

Continued from Page One

Control refused to drink. The law of this country, however, has been made to suppress the liquor business, but little progress can be made unless the public mind, especially the women, is educated.

As a result, the women of this city appeared to be a time for the law, but it is hoped that effective means will be found for dealing with the source of liquor.

The source was, however, the law of the land by legally making it impossible for anyone to sell liquor to anyone who is not a member of the police force.

The police force, however, has been a success. The police force, however, has been a success.

Lingering Weakness Following Disease

Our is the fact that the blood has become thin and weak.

In almost every case the victim of a disease, whether it be a cold, influenza, fever, or any other disease, is left with a lingering weakness following the disease.

The reason for this is that the blood has been impoverished by the ravages of the disease, through which the victim has passed.

Dr. Williams' Pink Pills for Pale People will restore the blood to its normal condition. The blood can be enriched and purified quickly and easily by Dr. Williams' Pink Pills.

NEW PLANS FOR WATERWAY

U.S. Organizations Are Not Cast Down by Canadian Government's Refusal

Washington, June 10.—Formal organization of the middle west and northwestern, when support had been given to the St. Lawrence project, are giving active consideration to the plan they will follow in view of the unwillingness of the Canadian Government to negotiate a treaty at this time.

They are not inclined to regard the refusal of Prime Minister King to negotiate as meaning a final refusal. They look at it rather as a postponement to a more opportune time.

One of the interesting suggestions for the promotion of the waterway is a campaign by the United States forming interests in Canada for the purpose of adding to the support of the project in the Dominion. Whether this will be carried out, is not yet settled but it is very early in being talked of as one of the possibilities. Another suggestion is that the State Department be authorized to use the best advice to get the Canadian government to negotiate.

Should a campaign to gain support for the waterway be undertaken in Canada, it would no doubt be directed in a large measure, though not entirely, to the agricultural interests of the Dominion, in the hope of getting the strongest pressure possible from agricultural interests in that country.

Senator Childs, New York, who is opposed to the St. Lawrence waterway, predicts that the refusal of the Canadian government to negotiate a treaty will practically end the matter so long as Premier King is in office. Advocates of the waterway, however, do not take this view.

In the opinion of some in Washington the effort by this government to force the negotiation now was a mistake and was due to ill-considered pressure from a small group of members of Congress who failed to see the wisdom of letting the movement take its course. However, it is also felt here that the high tariff duties of the pending tariff bill, which are viewed with apprehension in Canada as well as here, have had an indirect effect in helping along the St. Lawrence waterway and have had a tendency to make negotiations for negotiation of a treaty less favorable than they would otherwise be.

EVENTS OF THE WEEK IN PHOTOGRAPHS

SHOWS UP THE EXPERTS

Here is George Lawson whom experts advised not to attempt to grow any oats on his property at Courland, in Lennox County, Ontario. Here is a sample of the oats which he obtained from the same property. The yield was 88 bushels to the acre.

The latest photograph of Field Marshal Earl Haig.

PELEG HOWLAND

President of the Imperial Bank of Canada, who joined the bank's staff as its most junior clerk, just 47 years ago.

SIR GEORGE BURY AND HIS NEW WIFE

This photograph of the former vice-president of the C.P.R. and the former Mrs. David Bumsenthal, of San Paulo, Brazil, was taken just before their marriage a few days ago in Bress, Nevada. Mrs. Bumsenthal secured a divorce in the morning and married Sir George in the afternoon. It is her third matrimonial venture.

TWO-LEGGED COLT BORN NEAR WINNIPEG, MAN.

This two-legged colt is now lying in a private ward at the animal hospital, Fort Garry, near Winnipeg, Manitoba. Canada. H. V. Colborne, veterinarian, is working to keep life in the body and he believes the colt will survive. Normal in every way except for the lack of forelegs, the animal was born recently at the Fort Rouge Dairy Farm, Fort Garry, near Winnipeg, Man. It was reared in an ambulance to the hospital in an effort to preserve its life. There is no sign, according to Mr. Colborne, of even the stump of forelegs, which he believes is unique. The colt is being fed a special preparation of analyzed milk and is suffering no pain. In a few days when he has acquired sufficient strength, he will be "readied"—that is stood upon his hind legs with his forequarters strapped up from the roof, in a normal position. In this way he probably will live for years.

JOCKEY J. HUNTER

Who was injured this spring at Toronto, was seen today riding at the Belmont track, where he is the last race. This was Hunter's first mount since the fall.

HEAT WAVE STRIKES CITIES
A youngster who died on a cooling of mud in the heat wave conductor of heat.

MR. NELSON

Speaker of the Ontario Legislature, who is held in such high regard by all parties, that the question of making his appointment permanent has been considered.

A SHORT LIVED ADVANCE

There are shown the small body of men in the second mass-Ottawa crusade travelling along the Kingston road, just outside of Toronto. Below is the building at West Hill where the men spent the night before starting the return trip to Toronto on Tuesday morning. They turned back on receipt of word from Premier King and the Hon. Mr. Mackenzie that they would all be granted immediate physical re-examination.

GREGORY SEMENOV

"Attorney of all the Canadas," world-famous Russian soldier, who is journeying through Canada on his way to Paris, where he hopes to raise funds to fight the Bolsheviks.

MRS. S. D. CHOWN

Minister of Agriculture, who was elected on a receipt Saturday morning, standing along the side of the Ottawa market discussing with farmers and housewives the price of poultry and vegetables.

Wife of Dr. Chown, superintendent of the Methodist church in Canada, who was elected president of the Methodist minister's wives' association on Monday.

CANADA AT THE KING'S LEVES

When Mr. Larkin shed his silk tupper for the cocked hat, he took to the latter as a duck takes to water, judging from this photograph showing the Canadian High Commissioner and Sir Joseph Cook, of Australia, leaving the King's Leves recently.

King George and Queen Mary with the Duke of York, driving to the Derby at Epsom Downs.

LOCATION OF PENEVAY TREASURE TROVE.

May have about Milledale Bay and Port St. Marie near Portage, Manitoba, where dredging operations were commenced on Thursday by workers after the Jewish altar vessels and golden bowls, but continue now. The cranes indicate the route followed by the Harrows and the French Boat, St. Marie, to Christian Island, after measures of the Jewish priests by the Inuits. Above pictures are of Rev. Father Alphonse Murray of Portage, and Fred Jeffrey with the magnetic instrument to locate the treasure. Mr. Jeffrey is the great-grandson of the last monarch.

"THE GLEN"—THE GIRLHOOD HOME OF MARGOT ASQUITH
This beautiful home is on the border of Forthbridge and Schilphill, sixteen miles from Aberdeen and thirty miles from Edinburgh. It was designed on the lines of Glamis and Castle Fraser in what is called Scottish national style. It was the girlhood home of Margot Asquith, the most potentest female figure in English "high" life.

ONTARIO LOAN COMPANY NARROWLY ESCAPES CRASH.
Bad investments are given as the cause of the financial trouble, which the Dominion Savings and Investment Company, of London, Ontario, got into, and which necessitated the absorption of that concern by the Huron and Erie Mortgage Corporation, similar to the absorption of the Merchants' Bank by the Bank of Montreal. The whole case is the financial sensation of the moment. Above are shown four parties most immediately connected with the affair. They are (left to right) V. E. Gray, Registrar of Ontario Loan Corporation and Superintendent of Ontario Insurance Companies, who brought the trouble to light; Major Henry Gray, head of the Huron and Erie Loan Company; Thomas Hunter Purdon, president of the Dominion Savings and Investment Company; and Albert Mitchell, gen. man. of Dominion Dyeing, as agent of the Dominion Savings and Investment Company.

IN QUEST OF THE HARDY CANADIAN APPLE

It takes nearly a life time to produce a new variety of apple. Thirty years ago the Experimental Farm at Ottawa set out to find a new species suitable for the more severe districts of the Dominion. Only now have real results been obtained and half a dozen varieties have been produced. Above are shown some of the precautions that must be taken in the growing. On the left above the female blossoms have been bagged to prevent fertilization by bees and insects. On the right is shown a net given applebags for growing. Below are some experimental trees maturing under wire to prevent injury by birds and bugs.

LOOKING FOR THE INDIAN INVASION AT POINT PELLE

Although the American papers this week are carrying vivid stories of the invasion of Point Pelee, Ontario, by Indians with flaming tomahawks and bowmen-like hardware, the Canadian authorities have so far failed to come in contact with the enemy. The complete area of Point Pelee, Ontario, on the left, experimental work of the government park, which the soldiers are said to claim as their very own, and of Constable Raymond Nelson, of the Royal Canadian Mounted Police, as he looks on the "Monte" in the tree made along with the Indians, according to the American press, were supposed to be addressing.

East or West—Eddy's Best—since 1851!

"Here's an Eddy 40 years old!"

In an old shack near the Mattawa River, these matches—a relic of the old match-making days, a box of Eddy's matches made over forty years ago at Hull—were found last Autumn 1.

They had weathered the "extremes" of our Canadian climate, the heat and cold, the snow and rain for forty years.

It was an old sulphur match—the "Telegraph" Brand—the last set of matches at that time—a great match in its day.

Longer than Eddy's made to-day; it was water-tight. Still, it was a light, and a good one.

The most incredible thing of all was that after 40 years the matches were just as good as the day they were made, and the man who found them his pipe with one of these old tapers!

Every Eddy will serve you as faithfully.

ANNIVERSARY OF THE EMPRESS OF IRELAND DISASTER.

Monday, the anniversary of the Empress of Ireland disaster of 1914, in which 107 members of the Dominion Army perished, wreaths were placed on the memorial erected to their memory in Mount Pleasant cemetery, Toronto. Above is shown (these Hansjans placing a wreath on the monument). She was just seven years of age when her father and mother perished in the wreck. Immediately to her left are shown Mr. and Mrs. Greenway, two survivors of the disaster, who were on their honeymoon trip at the time. When the ship went down they were rescued from the water in different boats and were retained in Montreal after each had thought the other drowned.

AN ANGLO-JEWISH WEDDING.

Wedding scenes in weddings was provided at the Hebrew-Christian Alliance this week, which brought together from all over America Jews, who have adopted the Christian faith. The above couple, who met and were married despite the opposition, are the Rev. Jacob Garfinkman of Atlanta, U.S.A., and Lillian Brown of Toronto.

U. S. Consul Reviews Industrial Conditions in Canada in 1921

Washington, June 28 (By Canadian Press)—Financial conditions were favorable to "floodings of trade" between Canada and the United States, according to a report issued by the U. S. Consul at Ottawa, in a monthly report to the Department of Commerce reviewing trade and industrial conditions in the Dominion.

The report has been published in a special booklet by the Department of Commerce during 1921 through 1922.

The U. S. consul saw Canada's expansion during 1921 through 1922 as a result of the "dark" conditions. The report points out, however, that the "dark" conditions were not the result of the "dark" conditions, but the result of the "dark" conditions.

Much Interest Is Taken in Fate of Senator McCumber

"Washington," June 28.—The North Dakota primary election in which the people of that state today are voting on the selection of official party candidates for both parties for the forthcoming congressional election is of political significance which has aroused the keen interest in Washington and throughout the country.

Interest centers in the fate of Senator McCumber, Chairman of the Senate Finance Committee, and sponsor of the tariff bill and known here in the Senate. He is considered one of the most conservative and has the fight of the political life.

The nomination of Senator McCumber to the Senate by the Minnesota, the old guard have been so recent as to cause a stir in the Senate. He is considered one of the most conservative and has the fight of the political life.

The prevailing talk here among North Dakota politicians and other political observers has been for weeks that Senator McCumber has no will to fight and that the chances are against his re-election.

When it was known that he had the party pulled through many a political battle by good strategy on the part of himself and the legislature, he did not seem to be looked on as almost a foregone conclusion.

Senator McCumber is supposed to be the Republican primary for former Governor Frater and by Omaha, Nebraska, who once held office under McCumber. Frater is presently giving the support of the Republican League and is understood to be widely supported by the farmers. McCumber is trying to hold the farmers by the side of the Republican League and is trying to hold the farmers by the side of the Republican League.
